In the section below, the team captain must grant access to the pilots and crew members of his team:

Team Members

The screenshot displays the 'Team Members' management interface. At the top, there is a table with one row containing a 'Captain' role. To the right of the table, there is a 'Pilot' dropdown menu and a 'Change Role' button. Below the table, there is a 'Create User' modal form. The modal form has a green header with the text 'Create User'. It contains three input fields: 'Email address', 'Role', and 'Password'. The 'Role' field has a dropdown menu with the text 'Select role'. At the bottom of the modal, there is a green button with the text 'Create User'.

To create a new record, the team captain needs to add the email address of the pilot/crew member, select the role (pilot or crew member), and assign an initial password. Afterwards the team captain hands over this information to each team member, who can then log in to the portal himself.

Please, upload all necessary documents and information via the registration tool. This will save a lot of time regarding checking of documents and the scrutineering process. Thank you very much for your cooperation.
